

PIZZAS by OrderMate

Customised to suit your business. Designed to maximize your output and business productivity. Your staff will love using it and our live Reporting App, Control Centre will give you full visibility of your operation.

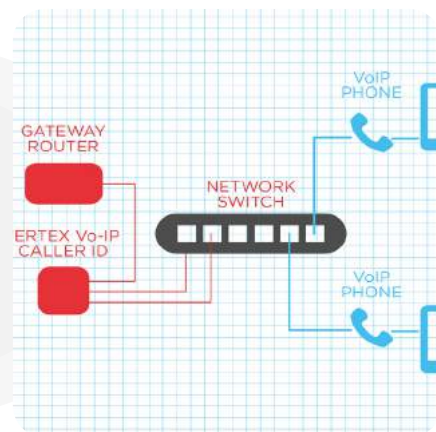

Build a Customer Database

This module will keep your customers coming back and spending more. Accumulate customer data and keep them informed.

Online Ordering Integration

Cut out the middleman and minimizing the effect of human error. Cut down your staff costs by directing all orders online through to the Point of Sale.

VOIP Caller ID

Pull vital information in your business database by the time you pick up the phone. Capability to place your regular customers' order within 10 seconds.

COST-EFFECTIVE

TIME-EFFICIENT

EASY TO USE

CUSTOMISABLE

NATIONAL BRAND

Connectivity over
all devices

Testimonial from 400 Gradi

Johnny Di Francesco

"I have seen many systems in the market, both locally and overseas and none are easier to use and teach staff especially in an industry with increasing staff turn-over. This was critical to me and the ongoing success of my business".
